

Freeman Wax Fillets

Description

Freeman Wax Fillets are made from a high melting point wax formulation for meeting a wide variety of pattern shop applications. They can be easily applied to straight or irregularly shaped surfaces because of their flexibility. Freeman Wax fillets are paintable and can be applied to bare wood or coated surfaces without the use of an adhesive by using a heated fillet tool.

Physical Properties

Color	Yellow
Ring & Ball Softening Point	179°F (+/-)6°F
Specific Gravity	0.915
